EXPERIENCE

ACI Logistics Ltd., Tejgaon — Software Engineer(Full Stack)

JANUARY 2023 - PRESENT

My role is to develop their own B2B project according to requirements. I developed web and Android apps. I used React Js and React Native etc. as a backbone of the frontend technology and I used Express Js and MongoDB as a backbone of the backend technology to accomplish different goals.

Storrea Ltd., Dhaka — Software Engineer(Frontend)

DECEMBER 2017 - DECEMBER 2022

My role was to develop custom themes to meet customers' requirements. I used Liquid Template Language(Backbone of Storrea themes), CSS3, HTML5, Bootstrap3, JQuery, KnockoutJs, etc. to accomplish different requirements.
